

DEMAND PARLIAMENT SCRAP BILL C-51

Whereas: Bill C-51 currently before Parliament is probably the most dangerous threat to Civil Liberties in Canadian history,

And Whereas: Bill C-51 effectively transforms CSIS into a Canadian Secret Police with almost unlimited power of search, intrusion and detention without charges or judicial oversight,

And Whereas; Bill C-51 criminalizes public dissent, legal strikes, aboriginal protest, and environmental protest if these are deemed a threat to the Canadian economy or prosperity,

And Whereas: the powers granted here institute a new assumption of "guilty until proven innocent," extend the no-fly list, and deny the accused access to evidence and normal legal procedure,

Therefore Be It Resolved:

That this call for the scrapping of Bill C-51,
call on the Canadian Labour congress and the Labour Movement
to join with our social justice
allies and all possible democratic sections of Canadian society
to organize opposition to Bill C-51.
